

Save the Date for the High School Outreach Program

Thursday, November 10, 2011 or Friday, November 11, 2011

This FREE high school outreach program is presented in parallel with the American Institute of Chemical Engineers' (AIChE) Midwest Regional Conference. The goal is to expose students to the profession of chemical engineering and engineering in general, and give students the opportunity to **interact with professional engineers, engineering students, and engineering faculty**. Students will come away from the program with an understanding of what chemical engineers do, how they touch our lives, and how to pursue a career in engineering.

We encourage you and your students to join us for this one-of-a-kind program.

What (Tentative Schedule):

1. NASA Astronaut Al Sacco, the first chemical engineering professor in outer space
2. Introduction to engineering and its sub-disciplines
3. How chemical engineers change the world
4. Campus and lab tours
5. Lunch and chat with college students and practicing engineers
6. Panel discussions with engineering students, professionals, and admissions officers

Who:

1. Sponsored by Chicago Local Section of AIChE and the Chicago Area Student Chapters of AIChE
2. Hosted by the College of Engineering, University of Illinois at Chicago

Where: University of Illinois at Chicago
